Commits Suicide

Hanging from a beam in a barn of his employer the body of Ole Bjornrud hired man was found by Tom Peterson, at an early hour Monday morning. Investigating the grim spectacle which greeted his eyes as he swung open the barn door, Mr. Peterson discovered that the suicide had apparently been dead sometime. This was later substantiated by Coroner Swartzlander, of Oyen, who after probing the unfortunate affair concluded that the victim had met death by his own act and that an inquest was unnecessary.

Bjornrud had resided locally for sometime and was generally known with being deficient mentally. He had just been released from the asylum at Christmas time. He has a brother employed on road work near Chinook. Several cousins also reside in the vicinity, it is stated.

No reason can be assigned for the rash act, but the authorities opine that it was committed during a temporary state of insanity. Bjornrud was a Norwegian, unmarried and about 40 years of age. He was buried Tuesday in Chinook cemetery.

Chinook Agricultural Society

Out of 104 Fairs held in Alberta last year, only 35 were a real success. The fair has gone forth from headquarters this year that a Society must make its fair a success or surrender its charter. Now, Chinook, with shoulder to the wheel—heave, ho!

The Directors have decided that there will be no entry fee charged this year to all show events.

What about making it a real big day.

Clover Leaf Items

A good number from Coltholme and Clover Leaf attended the service at Heathdale on Sunday, May 22. In future services will be held once a month.

Mr. and Mrs. McKinnon were the guests of Mr. and Mrs. G. Robertson on Sunday, May 22.

Mr. and Mrs. J. C. Hess and daughter spent Sunday at the home of Mr. and Mrs. A. Stevenson.

Mr. and Mrs. W. Wilson and Miss Brown were visitors at the Allen home on Sunday.

The U.F.A. meeting was held last Saturday evening. Arrangements were made for the coming election and delegates appointed to attend the convention at Oyen June 8. There are over fifty members in the U.F.A. and U.F.W.A. and it is important that every member turn out at the next meeting June 11.

Mr. and Mrs. J. C. Hess, Mrs. Wilson and her sister, Miss Brown motored to Chinook last Monday.

Farmers have finished seeding in this district, and the crops are looking fine.

Remember the big meeting on U.F.A. Sunday, June 19.

At the ladies card club held at the home of Mrs. Rennie on May 17. Mrs. Rennie won the prize, being a linen square. On Tuesday, May 23, at the home of Mrs. J. S. Smith, Mrs. Lindsay, Mrs. Chapman's substitute, won the prize. The club met at the home of Mrs. R. Dunn, Tuesday when Mrs. L. Robinson won the prize. Next meeting will be at the home of Mrs. Black on June 7th. Members please bring their fee 40c., and members that have forgotten to pay their May dues 50c please do so.

Born—To Mr. and Mrs. Tiggey of Little Gem, on Friday, May 27, a daughter.

Mr. E. E. Noble spent the week-end in Hanna.

Miss Hazel Moore, of Edmonton, left Chinook on Monday for Sibbald, accompanied by Inspector Yake where she will teach in one of the rural schools.

Lawrence Jones, teller in the Union Bank here, has been transferred to the bank at Sunnynook. Mr. Jones left on Tuesday for Sunnynook.

Mr. V. O. Forester, of Cessford, arrived in town last Saturday to take over the management of the Empire Lumber Yards at this point.

The members of the Ladies Aid gave a farewell party to Rev. and Mrs. G. Elliott on Tuesday afternoon at the home of Mr. and Mrs. C. W. Rideout.

Western Premiers' Conference To Discuss Unoccupied Land Problem

The announcement has been made in the Manitoba Legislature that Premier F. C. Norris will call a conference of the prairie province Premiers to consider what kind of uniform legislation is necessary to deal with the unoccupied land problem in Western Canada. It is also proposed that the conference consider the position of settlers now on the land with a view of finding ways and means to increase their productivity to the country.

It need not be argued that the calling of a conference for such a purpose is timely and in the national interest, for it has been well said that the economic future of the West and of Canada as a whole, depends upon the proper settlement of the unoccupied lands along existing railway lines and upon the improvement of conditions affecting the production of basic farm products.

The forthcoming conference is the outcome of various meetings held between the Western Provincial Cabinet Ministers and the officials of the Western Canada Colonization Association.

In the memorial recently presented to the Western Governments by the Managing Director of the Colonization Association, the view was clearly and strongly expressed that uniform legislation, calling for the listing of unoccupied lands at fair prices and for a reasonable period, was the keystone to the success of any genuine colonization movement.

It is idle to advance the theory that voluntary listing of unoccupied lands will suffice, for those who are in a position to judge as to the possible success of any voluntary movement are seriously impressed with the statement of General McKee that the proposed legislation is both reasonable and necessary. If the money subscribed to the Western Canada Colonization Association is to be expended in the national interest. The listing of unoccupied lands with the provincial governments will enable their Land Boards to issue maps and price lists similar to those now issued by the railway companies. Such maps and price lists will be generally distributed and will not only serve the purpose of the Western Canada Colonization Association, but as well all the land agencies throughout the provinces. In addition the necessary information will be provided to enable the Dominion Government to direct immigrants to the vacant lands near existing railway lines where homesteads are no longer throughout the country to the proposal for provincial legislation is evidence that the people of the West are seriously anxious to effectively deal with, and find a solution for, the unoccupied land problem in the prairie provinces.

The proposed "inter-provincial Premiers' conference" will probably be held at an early date, the outcome of which will doubtless affect every community interest in the West. In the meantime every Board of Trade, Municipal Council, Farmers' Organization, and all interested public bodies and citizens, should give serious consideration to this important subject and make representations in regard thereto to their respective Governments. Some legislation undoubtedly is necessary to deal with the serious unoccupied land problem. Needless to say, every urban resident is affected by the success or failure of the farmer on the land and should therefore be vitally interested in the forthcoming Premiers' conference when agricultural conditions will be fully reviewed and an honest attempt made to find a remedy for existing ills.

Germany Lost Her Opportunity

Refused Chance to Make Voluntary Offer to Allies.

The British premier lays open the very core of the problem when he notes the change of attitude in Germany's spokesmen since the first days of their terror when they came as suppliants to Foch on November 11, 1918. Today Berlin is making excuses not merely for delay, but for avoidance of her debts. "She is beginning to challenge her responsibility," he says, and when her representatives refuse to face their obligations they are cheered, and encouraged and supported.

Germany had an opportunity to make a voluntary offer, but she refused to take advantage of the offer. When forced to take action, the proposals she made were in the words of the British premier "exasperating." Today she is faced with an ultimatum backed by the rifles of Britain and the bayonets of France. If the terms are harsh Germany has only herself to blame.—The Montreal Star.

African Blacks on Rampage

Claim to Belong to Lost Tribes of Israel.

A despatch received from Johannesburg, South Africa, says a strong force of police, armed with machine guns, is concentrating in the Queens-town district, where a large number of blacks, claiming to belong to one of the lost tribes of Israel, have seized large estates and committed a number of crimes against the European populace.

These blacks, the despatch asserted, declare they are waiting for a divine call to return to Palestine and that their present activities are in preparation for this.

A Good Load of Hogs.

Hog raising in Western Canada is still a paying proposition despite the slump in prices of all farm products. John Hamilton, of Coaldale, Alberta, recently delivered a load of hogs to a Leithridge butcher, averaging 290 pounds each. They were nine months old and scaled this weight after a journey of eighteen miles.

Discoverer of Radium Is Remarkable Woman

Madame Curie's Position In Scientific World Is Without Parallel In History.

Mme. Marie Curie, discoverer of radium, is in New York to receive the gift of one gram of this very valuable element from American women. The rise of this woman to the position of a leading scientist of the world is without parallel in history. The daughter of a poor but distinguished Polish scientist, she worked her way up in the field of her choice until today she bears the unique distinction of having, together with her husband, received the Nobel Prize award, being the first and only woman professor at the Sorbonne in Paris, of having refused the ribbon of the Legion of Honor because, as she put it, "I don't like decorations," of receiving the English Albert Medal from the Royal Society of Arts, the second to be granted to a woman, Queen Victoria having received the first. There were many more honors and decorations offered, but the response in almost all instances was similar to the one given to the suggestion of the Legion of Honor award.

A STUDY OF OLD AGE

Is always interesting and reveals the fact that the blood is usually thin and lacking in the strengthening properties of young folks blood. If you want to fill your blood with the fire of youth, build up your strength, restore your nerves, just use Dr. Hamilton's Pills. This wonderful medicine is a grand system regulator. Keeps the bowels in good condition, keeps the body free of waste and impurities. For young and old the use of Dr. Hamilton's Pills is recommended. "At all dealers or The Catarthine Co., Montreal."

Tuesday Is Calamity Day.

Statistics show that calamities are far more common on Tuesday than on any other day of the week. Railroad disasters, fires, street accidents—the record in each case is easily held by Tuesday.

Catarth

Catarth is a local disease greatly influenced by constitutional conditions. HALL'S CATARTH MEDICINE is a Tonic and Blood Purifier. By clearing the blood and building up the system, HALL'S CATARTH MEDICINE restores normal conditions and allows Nature to do its work. At all Druggists. Circular free. J. P. Cheney & Co., Toledo, Ohio.

Telephone Subscribers Increase.

The new issue of the Manitoba Government telephone directory for Winnipeg shows an increase of 600 subscribers, there being 40,000 names in the latest, while in the January issue there were 39,400 listed.

WELL SATISFIED WITH BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Her use of them leads her to believe that no other medicine to equal them for any of the many minor ailments of childhood. Concerning them Mrs. Eugene Bennett, East Alton, Que., writes: "My baby was terribly constipated, but after the use of Baby's Own Tablets he is entirely well again. I am so well satisfied with the Tablets that I lose no opportunity in recommending them to other mothers. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Allies Will Care For German Graves

Over 400,000 Estimated to be on French Soil.

A conference will shortly be held between the representatives of the British French and Belgian War Graves Commissions and German representatives, with regard to the treatment of German graves in Allied countries and of Allied graves in Germany. It is estimated that there are over 400,000 German graves on French soil, and under 30,000 French graves in Germany. It is hoped that a satisfactory solution of this problem may be reached at the conference.

Farms In New York City.

There are in the limits of the city of New York 800 farms, valued at more than \$35,000,000. Five are in Manhattan, 55 in the Bronx, 54 in Brooklyn, 563 in Queens and 121 in the Borough of Richmond. The average value of a farm in the nation's greatest city varies according to location, and the average acreage value runs all the way from \$558 in the Bronx to nearly \$3,000 in Brooklyn.—New York Times.

Why Not Use Dried Fruit?

BY LORETTA C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

Some folks have the idea that in order to be effective, fruit must be both juicy and acid. They pass by delicious dried fruits plentiful and cheap enough to delight the heart of the most economical.

All dried fruits, as well as all Oriental fruits like figs, dates and the like, are horrifying dirty. Under the microscope this dirt is highly visible. Therefore, dried fruits must be thoroughly cleaned with a small brush and warm water. I find a new toothbrush desirable.

Then put the fruit to soak in clean cold water in a covered vessel. The fruit may be stewed in this same water when plump and much of the mineral matter that soaks out into the water may thus be conserved. Figs and dates, as well as raisins, should be scalded several times with boiling water and then spread out on a platter to dry.

In cooking any of the "dried and soaked" fruits arrange to cook slowly. This will aid in developing the natural flavor and sweetness. If you must add extra sugar, add it toward the end of the cooking. Less sugar is needed to give the desired sweetness if added at the end of the cooking.

A combination of prunes stewed with raisins and a very little lemon is a pleasing change. A delicious company dessert may be made of prunes combined with lemon gelatin. A pint of lemon gelatin is prepared and allowed to cool, but not necessarily harden. It is then whipped to a spongy consistency with a Dover egg beater and a cupful of stewed, stoned and mashed prunes is folded in, as well as half a cup of cream whipped until stiff.

A dozen nut meats chopped may be added. The mixture is set aside to thoroughly chill, or it may first be packed into molds. It is served with additional whipped cream. This makes twelve servings.

A novel frozen dessert is made by adding a cupful of apricot pulp, obtained by forcing stewed apricots through a strainer, and a cupful of banana pulp to a quart of very sweet lemonade, and then freezing. The lemonade must be over-sweet, as the tongue does not recognize the sweetness of frozen dishes so readily as others.

There are for sale some stoned cherries. Have you seen them? Ten cents' worth of these, cleaned and soaked and stewed and sweetened, and their juice thickened with ever so little cornstarch, will make the filling of a pie such as the caterer sells for one dollar. Try it.

The string figs are cheaper than the ones in pretty boxes. First, scrub these and then put them in a sack. Stew slowly, adding a little lemon skin if liked. Taste. If not sweet enough, add a little sugar. These are excellent for the first course at breakfast or as a simple dessert topped with whipped cream.

How Are You?

—A New York man declares that the ordinary reply to the question "How are you?" is either trite, ungrammatical or mendacious. Frequently, too, it is elaborate and tiresome.

It would be better, would it not, if more people regarded the rhymed rule in the matter, which runs:

"Don't tell your friends about your indigestion, 'How are you?' is a greeting, not a question."

The Deadly Fly.

The scratch of a lion's claw is almost as deadly as his bite, for he never cleans his nails, and he always carries under them rotting meat that is rank with deadly germs. Flies do the same thing on a smaller scale; and don't forget that they never wipe their feet.—Montreal Herald.

London's Missing.

Every year no fewer than 30,000 persons are reported missing in London alone. Some of them are never seen or heard of again; others, after weeks or months of absence, return and take up the threads of their former life as if they had never left it.

Use MURINE Night or Morning Keep Your Eyes Clean-Clear and Healthy Write For Free Eye Care Book Murine Co. Chicago U.S.A.

After Three Years Of Liquid Diet, Kaiser Is Picture Of Health

"I had lived on a liquid diet for three years and my case had twice been pronounced hopeless, but Tanlac has completely overcome my stomach trouble and I eat meat, vegetables and everything else I want now," said Joseph S. Kaiser, a boiler-maker, who lives at 331 Beverley St., Winnipeg.

"My trouble dates back to a spell of the flu three years ago and from that time up until I took Tanlac I steadily went down hill. For a whole year I was so weak I couldn't put my foot out of the house and while I spend hundreds of dollars trying to get on my feet, nothing helped me a particle. I just napped around the house so weak I couldn't even lift a shovelful of coal. I was suffering nearly every day from dizzy spells, headaches and awful attacks of nervousness. My skin got yellow and I fell off until I was hardly more than a walking skeleton.

"This was the fix I was in when a friend called and persuaded me to give Tanlac a trial. He was certainly a friend in need. I improved right from the first dose. I am as sound as a dollar today, have put on twelve pounds in weight and look, so everybody tells me, the very picture of health. I feel twenty years younger and the change in me is so great that my friends who know what a desperate condition I was in see me now are simply amazed. I have never known anything in my whole life to equal it."

Tanlac is sold by leading druggists everywhere.

Barnado Boy's Success

Accumulated Fortune of \$15,000 In Twenty-Five Years.

A former Barnardo boy, a farm laborer at Bowmanville, Ontario, was killed recently in an accident while working in a barn. He came to Canada twenty-five years ago from England as a boy and up to the time of his death worked as a farm laborer. He left an estate of \$15,000; \$1,000 he bequeathed to a Bowmanville hospital; \$1,000 to the Barnardo Homes in England, and the balance to a brother in England. He came to Canada penniless, and was forty-four years of age at the time of his death.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A delicious mingling of six essential oils compose Dr. Thomas' Electric Oil and there is no alcohol in it, so that its effect are lasting.

Bolshevists Abandon Food Control

Order Came Too Late To Relieve Situation.

Lenine's abandonment of government control of foodstuffs came too late to relieve the situation in Bolshevik Russia, according to letters received in Berlin from a family which has lived in Petrograd throughout the Bolshevik regime.

"The conditions are worse for us than they were when food was issued on cards," one letter stated. "We are told now that we may buy food, and the peasants are told they may sell food without violating government regulations. But there are no food shops. And the peasants about Petrograd have little food to sell. They don't want paper rules."

Canadians Celebrated Empire Day.

Canadians in New York celebrated Empire Day. The flag of the Dominion was in evidence at the headquarters of various Canadian organizations and a series of social and patriotic features marked the day.

The "Dumbells," the Canadian soldier entertainers, who were appearing at a local theatre, celebrated the day by giving a special performance at the Fox Hills Hospital, Staten Island, for the benefit of the soldiers there.

Use Lizard Skins For Shoes.

(Skins of many uncommon animals, including apes, lizards, walrus, pythons and numerous kinds of alligators and crocodiles, are now being used for making women's footwear.)

Saves Axles and Harness

Wheels turn easier and axles wear longer when they are properly lubricated with Imperial Mica Axle Grease. Its powdered mica flakes form a glassy surface for grease to work over. Thus friction is reduced and wear retarded. It costs less than any other grease because it lasts twice as long.

Imperial Eureka Harness Oil keeps your harness pliable, strong and new-looking. It gives leather a rich, black, lasting finish, protects it from moisture, and adds years to its life. It is easily applied and is a big money-saver on repair bills.

Imperial Mica Axle Grease and Imperial Eureka Harness Oil are the first choice of teamsters, farmers and liveries. A dealer near you carries both in convenient sizes.

"There's a Reason"

Minard's Liniment used by Physicians

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By O-GE-MAS-ES (Little Clerk).

(Continued)

The month was July and shortly after my arrival five York boats arrived from the farthest north post in the district, Lac du Brochet, situated at the northern end of that lake and semi-arctic in climate. About half the boat crews were Chippewyan Indians. It was my first meeting with this tribe and certainly a greater contrast in appearance to that of the plain Indians could not be found. They were rather short, more Asiatic in looks, many of them blue-eyed and they were not a pleasant looking lot, but by all accounts good hunters and industrious people. Brochet was a famous fur post, and as many of these men were noted hunters, they nearly all had considerable credits with the company, goods having run short at their home post. These balances ran from fifty skins to two or three hundred, a man and his family for Mr. Pierre Deschambault accompanied the brigade, he having succeeded his father before him in charge of that post and, moreover, speaking Chippewyan like a native. I and a young apprentice clerk named Jack Stewart, were detailed to the trading-store and here we passed many hours settling up with these Indians who appeared to be very inferior to the Crees in intelligence.

Two or three were taken into the store at one time, Mr. Deschambault being present, then goose-heads were solemnly counted out to them in accordance with the number of skins to their credit. At first we tried to hurry the procedure, but soon found that the more haste the less speed with these primitive men, as once get them confused and they would have to commence at the beginning and go all over the performance. The old depot as it was called in which the trading store was situated, was over a hundred years old, built of massive square timber, which had been rafted down the Saskatchewan River. Down on the floor squatted each Chippewyan, and spread out before him were the quills, and as he kept sorting them out in various little lots, would explain in guttural accents his wishes. The language they spoke was very different from any of the other native languages I had heard, and sounded as if it was uttered from the back of the throat. Mr. Deschambault would answer him in the same checking accents and so on until my patience was sorely tried, as we were very busy and working every night. But at last a list would be given us and we would fill the order. In due time they were all paid off and then we had the boatmen to settle with, also much stuff to pack for various posts, as boats had to leave at a certain time to get at their destination before freeze-up.

Madame Belanger, who had been a Miss Marion, was a lady of much refinement, very kind to us youngsters and constantly entertained us. She had a beautiful garden in which cultivated roses formed a prominent feature, and these were quite equal to anything you would find in Eastern Canada. Madame Deschambault, who had accompanied her husband to headquarters, was a gay young creature, and only too delighted to get away from the lone desolation of Lac du Brochet to the comparative civilization of Cumberland House where dances were held several times weekly. Pierre himself detested so-called

(Copyrighted)

civilization, and counted the days until he could return to his beloved north country. He was known to be possessed of a considerable private income (which he took good care of) and in an instant sent down some years before, just after he was married, there was included with his private order one very indispensable article of China, that is generally kept under the bed. Some wag changed this to one dozen and again at the Fort Garry Depot the dozen was erased and gross written in, so that no less than twelve cases containing 144 of these articles were shipped to Brochet on Pierre's private account, the freight, of course, amounting to many times the prime cost. This was the first trip he had made to Cumberland since these goods were forwarded and as the story was well known we were all agog to hear the result, but Pierre remained discreetly silent in regard to it. He, however, finally produced a bale of most beautiful beaver and other skins. "Hello," was Factor Belanger's remark, "what is this? You will know private trade is not allowed." "Well," was his slow and cautious reply, "when kind friends sent me up so much china I let the fact be known to the Chippewyans that some entirely new vessels had just come in which were invariably used by white people, and they shortly became the rage, and the Indian family who could not serve up caribou soup in one of them was not counted amongst the elite of savagdom."

There was a great laugh. Truly Pierre had one on the crowd, and credit was at once given to him for the total cost of the goods, while the company annexed the fur. A slow smile spread over his face, and he sure was not so slow, now was he? We at last had all goods ready for Lac du Brochet, Pelé a Narrows and other posts, and one fine day away they went on the long and arduous journey of many portages and rapid rivers, not to mention Lac Brochet itself, which is said to be two hundred and eighty miles long and full of islands. In fact one year in foggy weather the boat brigade having got off their direct course, was marked by lobsterbait from island to island, got lost for a week. The whole lake is still a terra incognita and though geologists have reported valuable mineral veins it is even at this late date unexplored, like so much of the great north country.

Factor Belanger, having decided to go east for the winter on a visit to his people, the Pys was made headquarters for the district, and a Mr. Alex. Matheson (chief clerk) a very talented Scotchman, was placed in charge of the district, with myself as an assistant. Alas, all the districts accounts (covering a country extending from Grand Rapids at the mouth of the Saskatchewan River to a point ninety miles between Brochet and Churchill, roughly speaking some seven hundred miles in length) came to the Pys for my education, but these I had mentioned in a former article. Mr. Matheson rose to be a chief factor in the service, his last charge being Fort William. His death occurred some years ago and was greatly lamented. He was very much beloved in the service by employees and Indians alike; in fact to know him was to love him, and personally, I owe him a deep debt of gratitude for helping to shape my future.

Restrictions On Orientals Increased

Entry of Chinese to Canada Made More Difficult.

Ottawa.—The bill to amend the Chinese Immigration Act was given a final reading without debate in the House of Commons. The bill increases restrictions on the entry of Chinese to Canada. Its main provision is one which abolishes certificates of identification for Chinese merchants and requires them to establish their bona fides to the satisfaction of the Canadian Controller of Immigration.

C.N. Station Dynamited.

Montreal.—Much damage was caused at Cushing on the Canadian National Railway about five miles north of Carleton, by the dynamiting of the station. It is believed that the outrage was an act of spite owing to the removal of the station facilities from one point to another. There were no persons on the premises at the time. No arrests have yet been made.

Will Visit Indians In North

H. A. Conroy Leaving Soon to Pay Treaty Money.

Edmonton.—On his way to Fort Providence and beyond to pay treaty money and to visit the natives of the north, H. A. Conroy, of the Department of Indian Affairs, is in Edmonton making preparations for his long journey into the north.

The Mackenzie River Indians will come in for treaty this year, according to Mr. Conroy, and the fact that treaty has never been paid them in the past attaches considerable interest to the expedition.

To Dredge Narrows at Vancouver.

Vancouver, B.C.—The Federal Government will assist with the dredging of the first narrows at Vancouver to make the passage into the harbor safe for deep sea craft of heavy draft. A telegram from Hon. F. B. McCurdy, minister of public works at Ottawa, was read at a luncheon of the Vancouver Shipping Bureau, promising aid in the work.

Disturbance In Egypt

Wires Between Cairo and Alexandria Have Been Cut.

London.—Telephone wires between Cairo and Alexandria, Egypt, have been cut, says a Central News despatch from Cairo. No news is coming from Alexandria, and disturbing rumors are current in Cairo, the despatch declares.

There was only desultory firing in the streets of Alexandria, reports received on the result of the recent riotous disturbances there. Fifty persons, including 12 Europeans, were killed and nearly 200 persons wounded. Looters and skulkers were responsible for these disturbances.

American Company Buys B. C. Mines

Big Sum Has Been Paid For Silver Lead Mines.

Revelstoke, B.C.—The Waverley-Tangier Silver Lead Mines, situated at the head waters of Donnie Creek, have been purchased by the Walters Investment Company of Spokane, Washington. The exact terms of the deal are not disclosed, but it is known that \$20,000 has been paid already and that the Walters interests have spent another \$10,000 for development work, which includes the construction of eight miles of wagon road from Albert Canyon, B.C., to the property.

Coal Freight Rate Cut

Reduced 10 Per Cent. From Alberta Mines to Prairie Provinces.

Winnipeg.—A reduction of ten per cent. in the rates on coal from the Alberta mines to the three prairie provinces is granted by the Railway Commission in judgment according to an Ottawa dispatch to the Winnipeg Evening Free Press. The despatch says:

"The mine operators and the dealers alike co-operated in an application to the board for a 20 per cent. reduction. The board grants 10 per cent. pointing out that when there was a general increase in freight rates last fall coal did not figure to the same extent as other commodities and that with such a reduction the increase would not be more than five per cent. The order is effective June 1, and expires August 31."

Record Journey Made To Reace River

First Party Travelling By Boat Has Arrived.

Peace River, Alta.—The first party to reach Peace River by the water route from Prince George, B.C., this season, has arrived. During the course of their trip they were forced to cut through the ice on Summit Lake. A record was made as the journey was accomplished in seven canoeing days and 101 miles were made down the Peace River in one day.

The party included C. J. Vernon MacKenzie, editor of MacLean's Magazine; H. Weston Taylor, of Philadelphia; and W. V. Chambers, of Bermuda, who are gathering magazine material.

Starving Soldier Found In Forest

Had Been In The Bush About A Week.

Toronto.—A discharged British soldier with \$56 in his pocket, whose clothes were tattered and filthy, was found in the forest near Woodbridge, Ont. His memory was gone. He was famished and ate ravenously when given food. It is thought he was in the bush about a week. He was brought to Toronto and handed over to the D.S.C.R. and was placed in the military hospital as a bed patient. According to the papers he carried his name is John McQuade and he is 29 years old.

U.S. Meat Imports.

Washington.—The United States last year imported 160,000,000 pounds of meat of all kinds, the Department of Agriculture announced. About two-thirds of the imports are said to have been New Zealand lambs.

Turks Must Release British Prisoners

Constantinople.—The British naval officials here have sent a warship to Adalia to force the Turks to release eleven prisoners who were removed from the British steamer Palatina.

W. N. U. 1369

Moscow Near Starvation

No Hope Of Supply Of Flour From Caucasus.

Riga.—Moscow is near starvation, it is said in reports from that city, as peasants refuse to sell corn and are keeping it for seed. The decree issued by the Bolshevik Government restoring freedom to trade does not seem to have removed the menace of a food shortage. Government commissaries sent to villages to purchase corn are said to have returned empty-handed and the hope entertained by the Soviet Government that it might secure a supply of flour from Caucasus, has vanished.

Propose Reduced Fare For Veterans

Ontario G.W.V.A. Request Rate Of Cent A Mile.

Brantford, Ont.—At the annual convention of the Ontario command G.W.V.A., a resolution was passed asking the Dominion Government to grant a cent a mile fare for unemployed veterans and their families on their way to employment with children under seven years free.

Such provisions should be continued until the present economic stage was passed, the resolution suggested.

Likes British Rule

Bombay Citizen Says It Is Blessing To India.

Chicago.—The British administration has been a great blessing to the masses of India, Rastom Rastomjee, former editor of the Oriental Review, Bombay, India, told the members of the Commerce Association. He said he was not a "servile apologist" of the British Government of India, but belonged to the constitutional opposition faction until that party was captured by radicals.

Attempt To Wreck C. N. R. Express Fails

May Be Connection Between This and Bridge Dynamiting.

Montreal.—An unsuccessful attempt to wreck an express train on the Canadian National Railway, St. Jerome and Montfort subdivision, has been reported to the management of the line here. The attempt, which took place on Victoria Day, was made at Morin Heights, and consisted of the placing of pieces of rail between the guard rail and the main line at two places. W. A. Kingsland, general manager of the C.N.R., said there was no doubt the attempt had been deliberate. He could not say if there was any connection between this attempt and the dynamiting of the Cushing station on the same section of the railway.

Briand Has Faith In German Promises

Confident That Government Will Carry Out Its Obligations.

Paris.—The Chamber of Deputies endorsed the government policy on German reparations payments by the substantial majority of 419 against 171.

This followed a three-day's debate in which Premier Briand championed the government's attitude on the Silesian and other important foreign questions.

Premier Briand reiterated his confidence that the German Government would carry out its obligations. He declared again that France's policy was one of moderation and justice.

Crank Dies By Fasting.

Selma, Iowa.—Walter Oliver, son of a wealthy farmer, died on the sixth day of a self-imposed fast.

Oliver was a conscientious objector and was sent to the Federal penitentiary when he refused to do a uniform. Upon his return to his home here he became a recluse and later entered into a fast, declaring, "I will not take food until the Lord blesses me."

Lady Tilley Dies.

Toronto.—Word was received here of the death at St. John, N.B., of Lady Tilley, widow of the late Sir S. L. Tilley, who was successively Premier of New Brunswick, Finance Minister of Canada and Lieutenant-Governor of New Brunswick.

Our Next Governor-General.

Montreal.—A London cable to the Star says the Evening News states the Duke of Northumberland may consent to succeed the Duke of Devonshire as Governor-General of Canada.

German Sergeant Will Serve Ten Months For Ill-Treating British

Ex-Emperor Tried To Sell Property

Has Made Himself Unpopular With People of Doorn.

Doorn, Holland.—The former German Emperor has made himself extremely unpopular in the eyes of the people of Doorn by an attempt to sell as building ground a strip of woods belonging to his estate, but outside his fences and therefore useless to him.

The Dutch Government on learning his intention to sell the woodland in small allotments, in order to add to his income, prohibited the felling of the trees in that place, while the Doorn municipality bought at auction the woodland in question thus preserving it for the public in its natural state.

Nonagenarian Takes Flight In Airship

Famous Pioneer Visited Victoria On Aerial Mail Flying Boat.

Victoria, B.C.—Effecting a contrast that is perhaps the most wonderful feature of his life, Ezra M. Meeker, famous pioneer of the old Oregon trail, visited Victoria from Seattle on a United States aerial mail flying boat. In his 91st year, Mr. Meeker culminated a career of transit, having travelled in every vehicle of the west from the days of the prairie schooner, bullock drawn, to the up-to-date flying boat.

Swiss Post Tax Fails

Doubling of Rates Proved a Financial Failure.

Geneva.—The doubling of postal rates by Switzerland as a revenue producing tax has proved a financial failure, according to official statistics. The receipts during the first three months of the present year decreased 7,000,000 francs, as compared with the corresponding period of last year, when the rates were normal.

French Demobilize Married Men.

Paris.—The Government on a favorable report from the army staff in the Rhineland, ordered demobilization of the married men and supporters of families from class of 1919. The remaining forces are considered by the Government to be adequate for all contingencies likely to arise.

Removes Colonel's Name.

London.—The removal of a colonel's name from the Order of the British Empire, has inspired the statement in the press that only five decorations have been made from the Order out of 25,000 appointments.

Many Injured In Fire Which Destroys Dublin Custom House

Seven Civilians and One Auxiliary Killed In Catastrophe Alleged to be Work of Sinn Fein.

Dublin.—The Dublin Customs House is in ruins and all the most important documents of the Government relating to Ireland together with papers and records, the value of which cannot be estimated, have been destroyed. This, Dublin Castle officials announce, is the work of Sinn Fein, the most formidable attack against Government property that has been engineered since the present rebellion was started.

London.—The Irish office has issued the following official report on the Customs House fire at Dublin:

"Three tenders carrying auxiliary cadets and accompanied by an armoured car approached the Dublin Customs House shortly after 1 o'clock this afternoon. As they approached the building, a number of bombs were thrown at the tenders from the railway bridge, while revolver fire was opened on them from the windows of the Customs House, which was occupied by a large force of Sinn Feiners.

"The tenders dismounted under heavy fire and surrounded the Customs House which was seen to be burning. Fires from the auxiliaries and the machine gun on the armored car was poured into the windows of the Customs House, from which the rebels replied vigorously and a series of desperate conflicts followed be-

Leipic—Sergeant Heyne, accused of having ill-treated British soldiers who were prisoners of war at the prison camp at Harne, Westphalia, was sentenced to ten months imprisonment by the high court. He was the first German soldier to be tried on criminal charges arising from the conduct of the war.

In his summing up address the prosecuting attorney-general demanded that Heyne be sent to prison for two years. In reviewing the testimony at the trial, the prosecutor declared that while prisoners of war could not be expected to be handled with "kid gloves," the application of violence and the use of offensive epithets was not warranted. He declared that Sergeant Heyne was shown to have exceeded the requirements of his position as guard over British prisoners in 28 instances.

Attorneys for the defence declared the sergeant was constantly beset with difficulties owing to the hostile attitude of British prisoners in the prison camp at Harne. The British, he said, were generally unruly, constantly mutinous, and reported themselves ill when they were perfectly well.

Sergeant Heyne made an address to the court, declaring that he had faith in the judges' sense of justice, and asking for an acquittal.

Of the other accused booked for trial soon, interest of the British is keenest over Carl Neumann, who commanded U-boat 67, which sank the hospital ship Doyle Castle off the coast of Africa, May 26, 1917. He is not yet under detention, but the government has promised to produce him for trial.

Patrol Boat Makes Capture

Japanese Schooner Caught Sealing In Canadian Waters.

Prince Rupert.—A Japanese schooner has been caught sealing in Canadian waters and engaged in fight by the steamer Malaspina, according to a report reaching here. The Malaspina, which left this port southbound, is said to have overhauled a Japanese schooner sealing. The report says that the Malaspina arrested the crew, captured 150 skins and then destroyed the schooner.

Vancouver.—The Malaspina is the Canadian Government fisheries patrol boat. When she left Vancouver for the North, Major J. A. Motherwell, federal inspector of fisheries, was aboard.

Rigel's Brother Ill.

Winnipeg.—Joseph Rigel, younger brother of Louis Rigel, famed for his prominent part in the stirring events of 1890-70 in Manitoba is very ill at his home in St. Vital; near here. He is now 64 years old.

Many Injured In Fire Which Destroys Dublin Custom House

Seven Civilians and One Auxiliary Killed In Catastrophe Alleged to be Work of Sinn Fein.

Dublin.—The Dublin Customs House is in ruins and all the most important documents of the Government relating to Ireland together with papers and records, the value of which cannot be estimated, have been destroyed. This, Dublin Castle officials announce, is the work of Sinn Fein, the most formidable attack against Government property that has been engineered since the present rebellion was started.

The Census

On Wednesday, June 1, the Census of the Dominion was commenced. The Census has been called "the largest single act of administration of the Government," in reference partly to its physical extent, the census organization covering every section of the country for a complex and many-sided task, and also to the great importance of census results in the general machinery of Government.

The success of the Census depends largely upon the co-operation of the people. Without general appreciation of the ends in view, and without the cordial assistance of individual citizens towards those ends, a good census will be impossible.

Children's Day at Collholme
On Sunday, June 5

Children's Day will be observed in the Collholme church on June 5. A Missionary program will be given by the children at 2 p.m. Also there will be a song service and preaching in the evening at 7.30. We are asking the people to bring their lunch and stay for the evening meeting too. Come and share in the blessings of the day.

Rev. G. H. Bauerle, Pastor

Ve Editor Will Attend Publishers
Convention at Vancouver

Although Editor "Bob" Smith plans a hike to the coast next week, where he will attend the first convention of the Canadian Weekly Newspapers Association, local folks will not of necessity miss their copy of the Advance. Arrangements have been made whereby Will Dyer, former editor of the Vancouver Sunday Sun and one of the best known among the younger editors and journalists of Canada, will carry on in place of Mr. Smith and the Advance will be published regularly during the town scribe's absence.

Ve editor offers his regrets that he can't take a carload of his friends along but as somebody said "Some must work while others dip their toes in the swim." Bob says he is going to take his stick along because he hears that old Pluvius sometimes keeps around Vancouver way. B.C. folks are showing a real interest in the prairies these days and he is going to tell 'em just how we do things around these parts - and the bumper crop that we expect this year.

Come in and have a chat with the acting editor. Bring him all the news. He wants to know all the folks around town and will be glad to meet you. Come in sure!

Bon voyage, Bob! bring us back an armful of those luscious strawberries from the Oklaia area.

EASTERN EDITORS TO
VISIT THE WEST

Party Leaves by Special Train on
June 2nd—Will Stop Off at
Many Places on Trip

On Thursday, June 2, at 4 p.m., a special train bearing many eastern publishers and their wives will leave to attend the annual convention of the Canadian Weekly Newspapers Association, which is to be held in Vancouver on June 3 and 10.

The party is made up of representa-

PUBLIC MEETING
OF
ELECTORS
In Arm's Hall
Thursday Night,
June 9th.

Come and hear NELSON SPENCER speak on
questions that are of immediate interest to you.

Vote for Spencer

live editors from Nova Scotia, Prince Edward Island, New Brunswick, Quebec and Ontario, and when gathered along with the 200 or more of the western provinces' members, will constitute the largest press gathering ever held in Canada.

Through the courtesy of the C.P.R., the C.N.R. and G.T.R. a very fine special train of 10 cars will be made up. The Easterners will use this train on the entire trip.

The going journey will be made over the Canadian National lines, and the return over the Canadian Pacific. Numerous stops will be made, ranging from three hours to a day, and these stops will include many important points in the West.

On the way out stops will be made at Winnipeg, Saskatoon, Edmonton, Jasper Park, Kamloops, while on the return visits will be made at Lake Louise, Banff, Calgary, Regina, Port Arthur. At Vancouver there will be much entertainment, and at Victoria the Lieutenant-Governor will give a party in honor of the visitors.

As the press party is to stop at a number of places there are no doubt many persons "now in the West, who still subscribe for the "old home paper" and who will take the opportunity to see "their editor" at once of the stopping places. If this is done it will make the trip much more enjoyable, as nothing would delight the editors more than to "shake the hands of old friends and subscribers in the West."

The Eastern editors will have a very pleasant duty, that of "writing up" the West. The railways will endeavor to show the party the most resourceful parts of the Great West, and no doubt the western men and women will have a hearty welcome ready.

This taking of notes on an extensive trip by Eastern weekly newspaper publishers may mean that some of the local weeklies will have to be closed-down for an issue. But we are sure that the people of the East will be well repaid, for their editors will come back home inspired and encouraged and prepared to furnish some interesting reading about the Canadian West.

The itinerary and timetable is as follows:

Going via C.N.R.
Time used is railway time.
Leave Toronto 4 p.m., Thursday, June 2.
Arrive North Bay at 12.50 a.m.; leave at 1.10 a.m.
Arrive at Collholme 10.50 a.m., Friday, June 3rd; leave at 11 a.m.
Arrive Winnipeg 11 a.m., Saturday, June 4th; leave Winnipeg 9.15 a.m.
Arrive at Saskatoon 11.30 a.m., Sunday, June 4th; leave 9 p.m.
Arrive Edmonton 9.30 a.m., June 6, leave 10.00 a.m.
Arrive Jasper Park 8 a.m., June 7; leave at 9 p.m.
Arrive Kamloops 9.25 a.m., June 8; leave 10.20 a.m.
Arrive at Vancouver 9 p.m., Wednesday, June 8.

Returning via C.P.R.

Leave Vancouver Sunday, June 13, at 8.30 p.m.
Arrive Lake Louise, June 13, 9.45 p.m.
Leave Lake Louise, Tuesday, June 14, at 4 p.m.
Arrive at Banff, Tuesday, June 14, at 5 p.m.
Leave Banff, Wednesday, June 15, at 8 p.m.
Leave Calgary Thursday, June 16, 6 p.m.
Arrive Regina Friday, June 17, at 9 a.m.
Leave Regina Friday, June 17, at 1 p.m.
Arrive at Winnipeg, Saturday, June 18, 12.30 p.m.
Leave Winnipeg, Saturday, June 18, 1 a.m.
Arrive Port William Saturday, June 18, 1 p.m.
Leave Port Arthur, Saturday, June 18, at 10 p.m.
Arrive Toronto, Monday, June 20, at 7 a.m.

Now's the time to paint that car. We have Efecto Auto-paint Top Dressing and Body Polish. See us for prices—The Service Garage, Chinook.

"Peace Hath Her Battles,
No Less than War."

Renew Your Membership
In The RED CROSS

During the war everybody gave to the Red Cross. In these Western Provinces, hundreds of thousands of citizens joined in the greatest flood of gifts ever poured through a single voluntary organization.

Because the need was vital, the emergency ever pressing, there was little formality of membership. Everybody belonged to and was a part of the war-time organization of the Red Cross.

Red Cross now has peace-time duties just as important to humanity as its greatest service of devotion in time of war. The Red Cross Societies of the world have leagued together in a broad-gauge, carefully planned continuous campaign—

For the Improvement of Health,
the Prevention of Disease and the Mitigation
of Suffering Throughout the World.

This work is to be carried out at home, right here in our own country by our own Red Cross and simultaneously in every one of the thirty-one countries associated in the World League of Red Cross Societies. The Red Cross peace-time crusade for good health is separate and distinct from the war work of the Red Cross or the great task that it is still carrying on, growing

out of its care of those who suffered in the war. To endorse, support and carry on its peace programme the Red Cross asks the approval of every citizen through the enrolment of his or her individual membership. The Membership Fee is \$1.00 per year. The payment of this dollar when you enroll your name is all the money the Red Cross is asking of you.

Enroll

As the outward and visible sign of your faith in the Red Cross, your participation in its good work, your support of its world-wide mission for the improvement of conditions under which humanity lives.

Enrolment Dates, June 5th-11th

Collholme Municipal News

A meeting of the council of the M.D. of Collholme, No. 243, was held in the Collholme school on Saturday, May 21st.

That George Dinwiddie be paid \$25 towards the cost of fencing one side of the road allowance taken across the corner of his land, the south-east 1/4 Sec. 26-8, and that the council recommend that the provincial government grant him a lease of the unused part of the road allowance to the south of this land.

An amendment by Mr. Falconer that the amount paid be \$36.00 instead of \$25.

For the amendment: Messrs. Falconer and Harrington. Ayes: Messrs. Kory, Marr, Walter and Hills. Motion lost.

The following advances of seed grain and feed be approved: N. D. Morrison, oats, \$30; A. Carlson, wheat, \$100; feed, \$50; E. O. Hecart, oats, \$75; J. H. Gustafson, \$65.50.

A Bylaw Relating to Relief Under the authority of the Municipal District Relief Act, the council of the municipal district of Collholme enacts as follows:

That this municipality may, for the season of 1920-21 advance relief on credit to residents of the municipal district, who, owing to bad crops or other adverse conditions, are unable to procure the same, and the council may, to enable it to make such advances, borrow upon the promissory note or notes of the municipal district, \$2,000 for the purchase thereof for distribution.

The value of all relief advanced hereunder shall be secured by promissory notes and by registered relief loans in favor of them municipal district upon all crops grown on the lands named in the application for the season after the date thereof and where the owner's consent has been obtained by a charge upon said lands.

Falconer: That the above bylaw be now read a first, second and third time and finally passed.

That \$148.45 owing to the Spreeman, Duncan Threshing Co. for threshing for Chas. Byssenger be paid out of the wheat stored in the U.G.G. elevator, Chinook, by Mr. Dossenberg, and for which the municipality holds a bill of sale by reason of seed grain advances to Mr. Dossenberg.

For: Messrs. Kory, Marr, Falconer and Walter. Aye: Messrs. Hills and Harrington.

That the secretary be instructed to notify Mr. Cardiff that the full proceeds of 107 1/4 bushels of wheat grown on the farm of H. E. O'Connor must be applied on Mr. O'Connor's seed grain indebtedness to the municipality.

That J. A. McColl, M.L.A., be asked to grant the council on the township line north of 36-26-8, as the municipal moneys available for the division are not sufficient to take on a job of this nature at present.

That the grain stored in the elevator at Chinook by Ole Anderson and of sale be now sold and the proceeds applied on Mr. Anderson's seed grain indebtedness.

That the \$362.50 owing to the Kelly Powell, Ltd., for freeways and road plows be paid by note payable on or before December 20, with interest at 8 per cent.

That in return for the refund of \$84.10 owing to P. Taylor of the S.V. 2-26-8 under the provisions of the Soldiers' Home Tax Exemption Act, his 1920 taxes amounting to \$56.15 be paid and the balance \$27.95 paid to him in cash.

That Mr. Walter see Mr. Fred Haase with regard to arranging for payment for the road diversion on his land, the E. 21-27-9.

That providing J. M. Davis give to the municipality the proceeds of 39 bushels of wheat now stored by him in the elevator at Chinook; and also the proceeds of the grain sold by G. L. Stewart to Toth Bros., he be allowed to dispose of the rest of his grain.

The following road foremen for Division 5; Jas. Gingles be road foreman for Division 6; W. D. Forbes for Division 4; W. D. Forbes for Division 3; Nestor Anderson for Division 2.

That the rates of pay for roadwork shall be as follows: For man, 50c per hour; for man and two horses, \$10 per hour; for man and four horses, \$16 per hour for actual hours of work.

That every ratepayer who will do work satisfactory to the road foreman should, if possible, be allowed to do at least \$10 worth of work for each half-section of land in the municipality that he owns.

That the superintendent of the seed and weed branch be notified that the ratepayers of the M.D. of Collholme, who reside along the west side of township 26-8 complain that sufficient efforts are not made by the M.D. of Floradale to eradicate the noxious weeds in that municipality, thus making it difficult for them to keep these weeds in check, and that a copy of this notice be sent to the secretary of that municipality.

The following weed inspectors were appointed: E. D. Hecart for Division 5 and 6; H. H. George for Division 1; J. M. Davis for Division 3; Wm. Stevenson for Division 2; John McLennan for Division 4.

That the following bills be paid as soon as funds are available: Chas. Wylie, gopher poison, \$135.88; balance of \$500 to be paid by note. Attorney-General (mother's allowance), \$67.50; Western Municipal News (supplies), \$55.87; Chinook Advance (printing and advertising), \$62.30; Plandaleff (printing and advertising), \$44.67; Lorne Proudfoot (telegrams and express), \$3.80; Geo. Marr (gopher tails), \$25.00; O. D. Harrington (gopher tails), \$25.00; W. S. Falconer (gopher tails), \$50; W. D. Walter (gopher tails), \$75.00.

The following payments made since last meeting were approved:

E. A. Foraker (seed wheat; L. C. Mill; 100; feed for L. C. Mill) \$50; J. R. Thomas (seed wheat for Chas. Ellsworth), \$80.75; J. R. Miller (groceries for L. C. Mill), \$30; Alta. Pac. Elevator (coal) \$15; H. E. Hamaguchi (gopher poison) \$200; Britton Bros. (seed wheat for E. A. Foraker) \$103; (feed) \$50; C. W. Rideout (stamps and envelopes), \$29.50; I. W. Denan (seed wheat for A. Carlson) \$100; (feed) \$50; Lucas Estate (seed wheat for H. Dupper) \$75; National Elevator (seed wheat for Mrs. M. A. Sullivan) \$100; (feed) \$50; Mrs. L. C. Miller, \$100; L. B. Courtright (seed oats for Jas. A. McDougall), \$50; Allan Spreeman (seed wheat for A. C. Anderson), \$75; I. W. Denan (seed oats for A. V. Grant), \$50; Lorne Proudfoot (commissions on government taxes), 1920 \$222.42; I. W. Denan (seed oats for N. D. Morrison), \$30; U.G.G. Chinook (seed oats for A. C. Anderson), \$25; H. P. Berry (seed wheat for P. L. B. Berry) \$100; (feed) \$50; Allan Marr (seed wheat for Geo. Marr), \$100.

That the council have no objection to W. D. Walter fencing the road allowance west of the south 1/4 26-8, providing suitable gates are placed there.

That the poundkeepers be furnished with a copy of the part of the Alberta Gazette containing notices of impounded animals.

That Mr. Marr arrange for the material required in repairing the pound in 2-8.

That the council approve of the agreement made with Louis Johnson for land required for road purposes from the N.E. quarter of section 19-27-7 at \$20.00 per acre.

That we do now adjourn to meet again in the Collholme school on Saturday, June 15, at 10 a.m.

Irrigation Project Will Involve Vast Area Of Alberta Arid Land

By tapping the North Saskatchewan and Clearwater Rivers near Rocky Mountain House—and probably the Red Deer, the Blind Man and Battle Rivers—it is estimated that a total flow of 5,800,000 acre-feet of water could be made to supply some 2,400,000 acres of arid land lying south of the railroad line between Coronation and Saskatoon; and with a view to considering the advisability and possibility of such a project, the local irrigation department of the Dominion Government is sending out a reconnaissance party to that district to investigate the details thereof.

William Pearce, of Calgary, who takes a very broad and advanced view of this project, has submitted to the local irrigation department a comprehensive outline of the details and possibilities of such a scheme. His conception is of a government area, which, while not commonly so considered, is really in a dry belt, where natural hay crops cannot be successfully raised and where no natural surface water supply is sufficient to support that amount of livestock which should be kept on farm lands.

It is described as an immense proposition involving an enormous area of land. Mr. Pearce's idea is to carry an artificial supply of water through this great area and to distribute it primarily for the purpose of establishing the stock industry; and also for supplying summer pasture and carrying the stock through the winter.

The water from the above original sources of supply would be diverted into Buffalo Lake and supply a rectangular area 130 by 180 miles square, lying south of the railway passing through Coronation, Kerrobert, Dodsland, Biggar and Saskatoon, and embodying a gross acreage of 2,900,000 square miles. And assuming that 40 per cent. of this territory would be directly irrigated, the net acreage would be approximately 1,600,000 acres of actually irrigated land. It is estimated that 100 per cent. irrigation would be required for the Berry Creek district; and, no doubt, also that district lying northeast of Youngstown. Twenty-five per cent. of the irrigation for grazing would be supplied in the winter for summer pasture, and stock water for drinking purposes would be distributed.

Detailed investigation is being made by the local office of the irrigation department, with a view to ascertaining the feasibility of such a project.

New Red Cross Is Militant

Will Not Only Relieve Distress But Prevent Disease.

"There is a distinct difference between the old Red Cross, which existed for such a splendid purpose during the war, and the Red Cross which is now in our midst," declared a prominent Winnipeg official of the Manitoba branch. "The difference between the two organizations, while not visible to the naked eye, is summed up in the one word 'militant.' The present Red Cross Society must be a militant organization to function properly down through the years that are to come. The Red Cross must be more than mere words and relief distress, it must show all forestal and prevent. In its fight against those formidable allies, disease and ignorance, it must carry the war into the enemy's land and constantly push forward and complete its defenses."

Postpone Western Canadian Tour.

The Inland Daily Press Association, Chicago, voted to abandon its proposed tour of Western Canada this summer as the guests of the Canadian Government. Although the Canadian Parliament had carried an appropriation for the trip, the invitation was temporarily withdrawn when a reduction of fares on Canadian railroads could not be obtained.

Valuable Discovery In B.C.

A large body of strontium sulphate and strontium carbonate, respectively celestine and strontianite, have been found on Tidewater, 200 miles north of Vancouver. It is said to be fifty acres in extent. Strontium is used in the refining of beet sugar, and it is also thought it may be found suitable to use in white lead in place of barium.

On an average a spinster's hair turns gray five years sooner than a married woman's.

W. N. U. 1370

Striking Miners Find Fresh Seam of Coal

Unemployed Are Exploiting Good Fortune to the Full.

A remarkable feature of the miners' stoppage in Northumberland, has been the discovery of what appears to be fresh seams of coal.

Thousands of miners and women, armed with picks and shovels, have taken possession of an old working, near Morpeth. The banks of the River Coquet have been tunneled as deep as 20 feet in search of coal, and the search has been more than ordinarily successful.

Big sums of money are being made by the pitmen. In some cases as much as £6 a day has been realized.

Out Of Agriculture

Basic Condition Upon Which May Be Built Happiness and Well Being.

Out of successful agriculture can grow successful manufacturing, and healthy industrial life. Only from "it," fundamentally, comes the means for existence of the lawyers, the doctors, the literati, and the other indispensable servants of civilized communities. Every tax, in the last analysis, a tax on the farm and the farmer, only out of agriculture—as its fundamental support—can arise the successful administration of a complicated modern form of government. Success in agriculture is the necessary basic condition upon which may be built the happiness, contentment, and well being of a people, and the stability of a government.—Banker-Farmer.

Nine-Year-Old Travels To Dakota

Small Boy Going Alone From Cardiff To Aberdeen, S.D.

On his way from Cardiff, Alberta, where he has been visiting relatives for the past year, little nine-year-old Vivian Titchbourne walked into the Canadian Pacific ticket office, Edmonton, and asked in a business-like way for a through ticket to Aberdeen, South Dakota. The ticket was made out for him, still in the same business-like manner the youngster, pulled from his wallet a fifty dollar bill in payment.

He was about to walk out of the office with his ticket and change when Charles Fyle, city ticket agent, asked: "Where are you folks?" "Oh, I'm travelling alone; going back to my mother, you know," answered the boy with the same degree of confidence that had characterized his entry into the C.P.R. building.

"You had better get a little information about your journey," suggested Mr. Fyle.

"I guess not, I came up here the same way," came the answer. That night, the kid slept in the Y.M.C.A. He could not make his connections or would have departed on his long lone journey shortly after his arrival from Cardiff.

Genial Charles Fyle finally gave the youngster all particulars about his journey and with the admonition that he better not fall asleep while waiting for the train connections in Calgary, nine-year-old Vivian smilingly walked out of the office as much as to say: "What do you think I am; leave it to me."

"What Every Husband Knows."

"It is hard to please women," sighed Binks.

"What's up now?" asked Jinks, sympathetically.

"Why, my wife has harped so on how much more attention men pay to women before marriage that I had a big bunch of roses sent home, and took her a box of chocolates."

"And wasn't she pleased?" asked the other.

"Oh, I don't know. She's been talking ever since about how much more sensible it would have been if I had sent home a ham and brought a new doornail with me."—Pittsburgh Chronicle-Telegraph.

Karakul Sheep Industry.

The success of pioneer breeders in Canada of karakul sheep has resulted in a great popularity for the valuable animal, and the industry is spreading over the Dominion. T. Karstad, of Camrose, Alta., is the latest addition to the list, having secured a foundation stock of twenty head from Dr. Patrick's Calgary ranch.

Beauty is only skin deep, and lots of wisdom is in the same class.

U. S. Will Present Stadium To France

Also Pay Cost of Levelling Shell Torn Ground.

A second stadium is to be given to France by America when the American Committee for Devastated France presents to the city of Soissons a similar sports grounds to Pershing Stadium presented to Paris by the American army.

During the war the American Red Cross acquired a large plot of ground in which to carry on its work, and soon after the armistice this property, much damaged due to trenches having been dug across it several times and also to a large number of shell holes, was presented to the municipality of Soissons by the Red Cross. The American Committee for Devastated France now has come to the rescue and will pay the cost of levelling the ground and erecting a stadium.

Oriental Language Quickly Learned

Study Does Not Offer Serious Difficulty to Englishmen.

The word has gone round in commercial circles that Chinese and Japanese are the languages for young men and women to learn. Dean Inge (known as the "Gloomy" Dean), of St. Paul's Cathedral, speaking at the City of London College, laid stress on the importance of the study by Englishmen of Chinese and Japanese for commercial purposes, and regretted the lack of facilities for such study in London. Sir E. Denison Ross, Director of the School of Oriental Studies, indicates that the languages do not offer such serious difficulties as might be imagined.

Mennonites Pay Million To Railways

Going From Western Canada To "Land of Religious Freedom."

Definite arrangements for the southward trek of the Mennonites to Mexico have been made and more than \$1,000,000 for railway fares will be paid the railways.

Between 15,000 and 20,000 Mennonites will take part in the exodus from Western Canada to what they say will be a land of religious freedom. Everyone of the larger railway systems is in competition for this business, which is the greatest religious mass movement since the flight of the Mormons from Illinois to Utah.

Patient Swallows Radium

Unaware That \$2,500 Had Gone Down His Throat.

Radium valued at \$2,500, which mysteriously vanished from the Sheffield Royal Infirmary, was, it has since been discovered, swallowed by a patient who was being treated for cancer of the tongue. Needless to say he was quite unaware that the infinitesimal particle had gone down his throat.

The electroscope, or special apparatus used in a search for missing radium, is a very simple affair. An eminent radium specialist showed one to a press representative the other day. It was used unsuccessfully on the patient referred to.

Autos Are Not Allowed In Bermuda

Only Civilized Place From Which They Are Barred.

Renewed efforts to enact a law permitting the use of automobiles in Bermuda have been made this spring by members of the Bermuda assembly.

These islands have held out so far against what is considered a "dangerous innovation," but there is a strong party for rapid transit.

The chief opponents of automobiles are American winter residents and tourists.

As this colony has only a little more than nineteen square miles of area, visitors do not regard motor transport a necessity. Since the island of Nantucket admitted automobiles, this is about the only civilized place from which they are barred.

The Precident.

A very cultured and accomplished clergyman in the south was once in the company of an illiterate person who professed to despise education and who remarked: "I am thankful that the Lord has opened my mouth to preach without learning."

"A similar event occurred in Babylon's time," was the retort.

People who are both faithful and executive are hard to beat.

Duke of Connaught Won People in India

Conspirators Tried to Make Trouble But Were Unsuccessful.

By all accounts the Duke of Connaught wrought wonders in India. That is the unanimous testimony of the British correspondents who accompanied the Duke on his visit, undertaken at the request of the King-Emperor, in connection with the opening of the new Legislature, under the enlarged powers of the new House of Representatives which he made.

The general temper was sullen. The great princes surrounded the Duke in barbaric splendor. The uniforms of the great chiefs were encrusted with diamonds. The ransom of kings shown upon the breasts of the native aristocracy, with a blinding light; but Mr. Ghandi, the arch-conspirator, and those he could influence, did their utmost to make the visit of the Duke of no effect. His Royal Highness perceived all this; and determined upon a capture of hearts. He is as we all know, an accomplished diplomat. He has a magnetic personality. His sympathies are quick and warm. He knows the East Indian character—

insofar as any living authority can understand the elusive and patient and immovable East. "While in India he mingled with the people with democratic ease; and by such means won their hearts; and at the critical moment, when the new Legislature was about to be opened, the Duke, by his manner, by his graciousness, but above all, by his placatory and assuaging words, captured all present. It was felt that the language of the Duke was his own. Formal words there had to be; but the poignancy of the words addressed directly to the people, the sympathy with the natives in their progress, the regret expressed for policies and the results of policies not always wise; but chiefly, the humanness of his attitude, his warm grasp of the hand, his happy recollections of pleasant days in India—all conspired to win the people who acclaimed him again and again.—Montreal Gazette.

New International Language Invented

Invention of Berlin Architect Is Based On Numbers.

Timier, a new international language, is described in an explanatory brochure by the inventor, a Berlin architect named Timier. "The new language is based on numbers and their combinations, the first 200 figures standing for words and parts of speech in daily use, while another 6,000 figures correspond with so many words. By means of added signs 12,000 combinations may be constructed. The inventor explained that ideas are the same throughout the civilized world, only the mode of expressing them in words varying in every country. The figures corresponding with the same words in any language will convey the same meaning to everyone. He admitted that this crude system will not be suitable for Shakespeare translations, but will be a ready means of communication for trade purposes and all requirements of ordinary life.

Russian Trade Revival

Meeting of Commercial Organizations Held at Paris.

An important conference of surviving Russian industrial and commercial concerns was convened in Paris recently. Examination will be made into the economic ruin caused by the Bolsheviks. There also will be discussion of the possibility of a revival of business and on the question of participation by foreign capital in the rehabilitation of the country.

Among the 34 Russian industrial organizations represented were the Russian manufacturers and merchants' association of London, and similar Russian bodies in Switzerland, Turkey and Germany.

Present Radium to Madame Curie.

Madame Marie Curie, eminent French scientist, received from President Harding the gramme of radium purchased for her by United States women in the interest of humanitarian research. The presentation ceremony took place at the White House. The radium, purchased at a cost of \$100,000, was locked in a little ribbon-draped cabinet.

Calgary's Industrial Progress.

Calgary stands ninth in a list of principal cities judged by industrial progress. The figures give Calgary 230 establishments with 8,685 employees and wages totalling \$4,375,609. The capital invested is \$39,580,495, the cost of material \$22,384,639, and the value of products \$31,804,133.

Britain Justified In Refusing Irish Sovereignty Says American Writer

The doctrine of the self-determination of little nations is wrong and Great Britain is justified in refusing the Irish sovereignty, despite the best claims of Ireland for the world's sympathy and support in a sincere fight, according to Dr. Hawkins, an American writer.

"The doctrine of self-determination," states Dr. Hawkins, "widely proclaimed since the World War, has been fruitful of nothing but strife and turmoil in many parts of the earth. It has drenched Ireland in blood and stirred bitterest and strife. It is a doctrine which sounds well when proclaimed by idealists and political dreamers, but, except in rare cases, is false in principle and impossible in practice.

"There is one principle greater than the principle of self-determination, namely, the law of national self-preservation and safety. The first and unalterable right of every nation is the right to preserve itself. We fought for this principle in the days of the Civil War. The South proclaimed the right of self-determination. Lincoln proclaimed the fact that there was a law greater than the right of a section of a country to self-determination, namely, the right of a nation to maintain itself, one and undivided. That was determined forever for the United States the principle that no section of this country should have the right to determine what its government should be, or what its institutions should be, so long as its desires conflicted with the rights of the whole nation. That was the death blow in America to the doctrine of self-determination.

"Great Britain had to fight the same issue in the early history of Canada. A people of French extraction extended up and down the Eastern shores of Canada from Labrador to the United States. These people claimed the right of self-determination. Any idealist might have shown why they should have been given this right. But there was one principle greater than the imperative right of self-determination of the French colony, that was the safety and future development of Canada herself. With all their claims to sovereignty, the whole Atlantic seaboard, her commercial life would have been killed and her future greatness would have been an impossibility. The very safety of Canada depended upon her power to deny the right of self-determination. It was denied, and the French, against their will, were forced to accept British sovereignty.

"The same principle applies to the struggle between Great Britain and Ireland. You may make as strong a case for Ireland as you will on the ground of sympathy; you may, if you will, build an argument on that ground that is unanswerable; you may dig into the past and out of the tomb of history bring all the charges you may against England in her treatment of Ireland; you may build your argument on the noble spirit of independence of the Irish people and their rights to be a nation to themselves; but after all your arguments you come against the fact that Ireland is geographically a piece of land at the very doors of England, so close to England that were she independent her guards could sweep the waters on which the English ships must steam into Liverpool and Glasgow, and in case of war could shut England from the outside world and starve her in a fortnight, and that a nation, so situated and compelled first of all to care for its own well being, could never grant self-determination to a land situated as Ireland is.

"We may visualize the problem by bringing it to our own doors. Suppose the Olympic peninsula were thickly inhabited by Hittites; suppose they owned the land and had owned it for 500 years; suppose they had created a literature all their own, institutions and a religion all their own and the place was thoroughly Indian. Then suppose they should say: 'We demand self-determination. We might be generous enough to say, we recognize the force of many of your arguments, but there is one thing which is above all of your arguments and that is the safety of the United States. We can never have at our doors a foreign state which in time of war might bottle up our harbor, destroy our commerce and make impossible our fighting force. The safety of the United States depends upon keeping you a part of our country that in time of peace and in time of war we may control our harbors, direct our commerce with freedom and defend our coast.

"The whole question between Great

Britain and Ireland is fundamentally not a question of religion, as is often asserted, nor is it a question between the North and South of Ireland. It is a question of geography. On the Eastern shore of our country Long Island stretches from Cape Cod to New York. As well think of populating that island with some foreign race and then giving it an independent government as for England to think of giving a free and independent government to that piece of land called Ireland which stretches in front of her western shore and blocks the way to her harbors.

"There has been a great deal of propaganda in our country to win the interest of our citizens to the 'Irish Republic.' Millions of dollars in this country have been raised to carry forward the battle. 'It is time that Americans began to free themselves from the fallacies of this doctrine of self-determination of small nations, to recognize the fact that there is one law greater than that of self-determination, namely, the law of the safety and self-preservation of nations. This latter law is the chief factor which England must consider in her treatment of Ireland. It is time that Americans recognized it and that we gave to England our moral support that these conflicts which are contributing to the general unsettlement of the world may be terminated.'

Chinamen Make Better Citizens Than Reds

Are Willing to Work and Do Not Cause Trouble.

A Toronto Chinaman has written a letter to one of the Toronto papers which makes interesting reading, if only because of his attempt to express himself in English. But he has ideas, too. He points out that the Chinaman is compelled to pay \$500 head tax in order to get into the country. His opportunity is limited, yet he finds useful work to do and he does it. Apart from a little gambling now and then and an occasional indulgence in opium he gives no trouble. He doesn't organize strikes, he doesn't denounce the constitution, he doesn't seek to overturn the established order of things. Ordinarily he is peaceful, civil and quiet. Yet he has no standing in the country.

Compare him with the Red, who pays no head tax, who does not want to work himself or to allow others to work and who is constantly giving trouble by his inflammatory language and his revolutionary methods. The comparison is not without significance, especially at the present time, when members of the Red element use the freedom of this country to denounce its institutions and to preach revolution after the Russian fashion. If Russia is such an ideal country, why don't these people go there and stay?—Woodstock Sentinel-Review.

Problems of Peace

Need of Co-operation to Right the Present-Day Conditions.

That the problems of peace are almost as difficult to solve as the problems of war, was the statement by Hon. H. H. Mills, Ontario Minister of Mines, speaking to Fort William citizens.

Mr. Mills said that if only 25 per cent. of the co-operation existed today, as that which existed during the five years of war, conditions would soon right themselves.

He declared that the farmer had pocketed his loss, and now it was up to the manufacturer, the wholesaler, and the retailer to do the same.

A. B. C. Town Passes Out.

"I don't think anyone else will register from there in many a day," said G. K. Sproat, as he wrote "Phoenix, B.C." after his name in a Toronto hotel register. "Phoenix was a busy city of 2,000 population a few years ago. Then the ore petered out. There's not a soul living there now. I'm on my way to Kirkland Lake."

Displacing Camels.

The railroads and the camel caravels of Jerusalem together have been found inadequate recently in the handling of freight and the result has been the introduction of the inevitable motor truck. These have been so satisfactory that the animals are being discarded rapidly. These frod the sands of Palestine for centuries.

When Does Bronchial Trouble Begin To Get Serious?

First it was a little throat tickle, then a cough which grew severe. This neglected cough travels down the lungs, and it's mighty hard to treat. To treat throat trouble right, use Catarrhose. It heals the sore spots, allays irritation, eases the cough, makes breathing regular, clears out the phlegm and frees the nostrils from crusts and accumulations. You can prevent colds, and keep free from Catarrh and bronchial trouble by frequently using Catarrhose—thousands prove this every day. Sold everywhere, two months treatment \$1.00, medium size, 50c; small size, 25c.

Enter Mother-in-Law

By Ella Randall Pearce

The letter was addressed to Mrs. Franklin Kirby and its contents conjoined secrecy. "I want to surprise Franklin," wrote that young man's mother.

"And you've surprised Franklin's wife, too?" This thought was slightly tinged with bitterness, for Vera had her pre-conceived notions of mothers-in-law, and her first feeling was resentment that her happy little home was so soon to be invaded by the arch-enemy of domestic tranquility.

"Franklin's mother—of course, I expected to meet her some day. And of course, I'll do my best to get on with her. But now—!" Vera bent above the written page again.

"I'm coming for a visit, but if it suits me I may stay." Vera gave a gasp as she read. "The idea! I call that. Coming for a visit—and may stay. Does that mean forever? Oh, well I'll have to hang out the welcome banners, for Franklin's sake."

Vera kept her secret during the next few days; but it rumbled within her heart. You couldn't tell her anything about mothers-in-law! She knew what they were like, even the best of them.

They never thought a woman quite good enough for their precious son—and Franklin was an only child! And they never quite approved the wife's housekeeping methods, especially her cooking. And they always considered the other woman a little extravagant, to say the least; and a little careless of Hubby's comfort; and a little too fond of worldly pleasures.

"Oh, I'm sure to come in for criticism and advice," reflected Vera. "And Franklin thinks me quite satisfactory as I am. Now he's going to have my faults pointed out. Now he's going to learn that the woman he married isn't and never can be quite as good as the mother he forsook."

Vera went about her daily tasks, conjuring up disturbing visions of what the advent of the elder Mrs. Kirby might mean. She had known Franklin but a short time before they were married; and she had not met a single member of his family. And there had been much for her to learn in the way of domestic arts and sciences.

"And now I'll be told how far from perfect I am!" Vera shook her head as she went about the task of setting the guest room in order. It was also her sewing room, and now she would have to give up her needle work for the present.

"And, if it suits her, she'll stay," mused Vera. "I'd like to ask Franklin some questions about his mother, but I don't dare. He'd suspect. If only I knew more about her. First impressions are so important. Well, the scene is ready, the time is come, enter mother-in-law!"

And then a taxi whirled up to the door, and the stranger guest whirled into the Kirby's living room and dropped all her bundles to embrace the waiting hostess.

"So this is Vera, little Vera. Why, you're head and shoulders above me," ran a laughing, silver-toned voice. "I'm going to take a good look at you when I get a chance. Oh, my roses—I'm dropping them all over the floor. They're for Franklin."

I've brought some bon-bons for you, my dear."

The newcomer threw off her wraps and looked eagerly around. "Franklin's home—if you knew how I've wanted to see it! Can't I look about now, every nook and corner?"

She slipped a hand childishly into Vera's clasp. "You modern young housewives frighten me," she tipped. "You're so wise, so efficient, I never did learn to keep house." Then she laughed merrily. "But I kept a cheerful home, and that's something. I made Franklin's father happy. And I made Frank happy as long as he was with me. I know you're making him happy. I know by his letters."

She looked long and lovingly at Vera, and tenderly patted the hand she held. "Isn't Franklin wonderful?" she said with enthusiasm. "Isn't he worth doing things for?"

They stepped into the tiny blue and white kitchen. Oh, just like a toy house," exclaimed Franklin's mother. "I believe I could work here and enjoy it. But I never did care for kitchens, and cooking seems a mysterious art. I always had someone else do the cooking, and I gave my attention to the service end. I can pour tea to perfection."

Vera watched her in bewilderment as she went from room to room; talking entertainingly of many things. She was an exquisite figure, slender and light-footed, with silver blond hair fashionably arranged, bright blue eyes and a fresh pink and white complexion. Her small nose uplifted a trifle and there was a dimple in her cheek. She had an air of permanent youth.

The sort of person who never grows up, thought Vera. Yet there was wisdom and shrewdness, too, in her bright eyes; and an undercurrent in her silvery tones that twanged at one's heart strings now and then.

"Such a dear sweet home. I'm going to be happy here while I stay. And I'm going to do all I can to make my visit a happy memory for you, you two dear children."

Children! Vera already felt old and sober beside this light-voiced, light-footed stranger. The elder Mrs. Kirby tilted her head charmingly, with a sparkle of mischief in her glance.

"Did my letter worry you? I always announce my visit in that way, that if I am suited I shall stay. But I never stay." Her dimple came into play. "I am a wanderer. When Franklin's father was living, we traveled together and so I got into gypsy ways. I have friends everywhere. So I come and visit, but I never stay."

Vera watched her vivacious guest as she arranged the roses she had brought in a cut-glass vase. A sudden tenderness crept into her heart. A thrilling longing, almost maternal in its nature, to draw that gay, roving, childish spirit within the sweet, protective circle of home life.

She went swiftly to the other woman's side and laid a caressing hand on her shoulder. "I want you to remember, Mother Kirby," she said, and her voice quivered with newly awakened emotion, "Wherever you go, this is your home. Always. With Franklin and me. And always we shall want you to come and stay as long as you will."

Wealth in Dairying

Billion Is Invested In Livestock By The Canadian People.

There is no less than \$1,076,000,000 invested in livestock in this country; there is also \$120,000,000 invested in poultry. Dr. S. F. Tolmie, Federal Minister of Agriculture, told the Kiwanis Club at Ottawa. Canada is now the largest exporter of cheese in the world, the minister declared. Dr. Tolmie also expressed the hope that the investigations of the commission now sitting in Great Britain would result in the embargo against Canadian cattle being removed.

Good Price For Wool Clip.

About \$400,000 was received by Southern Alberta flock owners for last year's wool clip. The total consignment through the Southern Alberta Wool Growers' Association amounted to 1,465,844 pounds, which at an average price of 28.83 cents net was obtained. This is considered a very favorable figure in view of the state of the wool market.

Fruit Pulp New Shipment.

Fruit pulp from British Columbia to the United Kingdom is a new feature in shipments outbound from this port. On the S.S. "Morick," which left Vancouver recently, there were two tons of fruit pulp as a sample shipment.

Tallest Man Dies.

Bernard Coyne, 24, said to be the tallest man in the world, is dead at his home near Sioux City. Coyne stood 8 feet 1 inch and weighed 300 pounds. He wore size 24 shoes.

Growth Of Education In Saskatchewan

Has Kept Pace With The Increase In Population.

Despite the rapid growth of settlement in the prairie provinces, the education of the younger generation has kept pace with the increase in population. Each province has its Department of Education whose energies have been devoted to establishing schools in every settlement, so that every child throughout Western Canada might have the advantages of a public school. Just how far this ideal has been accomplished may be judged from the following statistics relating to the province of Saskatchewan:

On September 1st, 1905, when the province was formed, there were 894 school districts, of which 10 were separate schools. Since then the organization of school districts has been so rapid that at one time a new school was erected for every day in the year, including Sundays and holidays, and at present there are more than 4,800 school districts, of which 20 are separate schools. In 1905 there were no secondary or high schools, though a few of the elementary schools were doing high school work; but now there are 24 high schools and a university, so that it is possible for a student to receive a public, a high school and a university education without having to leave his own province.

A Sportsman's Paradise

Saskatchewan One of Best Big Game Countries on Continent.

The value of Saskatchewan's game resources is not generally known, despite the fact that this province is one of the best big game countries on the continent.

Last season alone a total of 2,170 big game animals were secured by licensed hunters. This bag includes 80 caribou, 870 deer and 1,200 moose. Were the 1,200 head of moose secured placed on the market, their meat alone would fetch a very considerable sum. These animals would cost about \$400,000, while the skins alone would amount to \$240,000.

North of Prince Albert is the caribou country, and while moose have been secured all across the province from Onion Lake eastwards, they are especially plentiful from Crooked River east to the Manitoba boundary, within easy reach of the railway. In this district as many as sixteen moose have been killed in one township.

Reason Germans Hold

The Ruhr District

Industry of Country Depends Entirely on Coal There.

When speaking of the recent proposal to occupy the Ruhr district, Premier Lloyd George said: "I must first point out exactly what the occupation of the Ruhr would mean. Before the war the output of coal in the Ruhr Valley was the largest production obtained in any single coal field in the world. It was considerably over one hundred million tons. It contains every quality of coal for every conceivable purpose for which coal can be used. Two-thirds of the whole of the German iron and steel production is in the Ruhr Valley. The importance of the region may be gauged by the fact that last year 25,000 railway trucks of fifteen tons were loaded every day in the Ruhr, double the number of goods trucks handled daily by the Nord Railway in the great industrial valley of France. During the war the Ruhr Valley was Germany's great arsenal for guns, for shells, for gas, and the industrial development of South Germany depends almost entirely upon the coal of the Ruhr. With the Ruhr gone, industrial Germany withers?"

Poch Accepts New Appointment.

Marshal Poch, the generalissimo of the Allied armies during the great war, has just accepted the title of honorary colonel of the 22nd Regiment at the Quebec Citadel. His appointment was sanctioned by His Majesty King George and approved by the British Government as well as by Canadian military authorities.

"Sengite" Is New Explosive.

South Africa is now manufacturing a new material to take the place of nitro-glycerine explosives. It has been tested in mines and is regarded as both strong and safe. It is called sengite, the first syllable being derived from the initial letters of the words, "substitute explosive, no glycerine."

A sign has been discovered in an old tailor shop in Pompeii reading: "Ceases in your way togs while you wait."

CUTICURA HEALED PIMPLES ON FACE

Also Itchy Scalp. Hair Fell Out. Face Disfigured.

"My head began to itch and there were scales on my scalp. My hair came out badly when combed and it became very dry and thin. I also had pimples and blackheads all over my face. The pimples were large, large, and red, and caused me to scratch and irritate them, and my face was disfigured."

"This trouble lasted about two months and I began using Cuticura Soap and Ointment. After I had used two cakes of Soap and two boxes of Ointment I was completely healed." (Signed) Miss Zona Jackson, R. S. Goldenhale, Wash. D. C.

Improve your skin by daily use of Cuticura Soap, Ointment and Tablets. They are ideal. See 25c. Ointment 25c. Soap 10c. Sold throughout the Dominion. Canadian Depot: 1414 St. Paul St., Montreal. Cuticura Soap shaves without need.

South Africa Behind In Caring For Veterans

Canadian Delegates Return From Conference With Marshal Haig.

Marshal Haig has returned to England from South Africa, whither he had gone to preside at the empire conference of Great War Veterans. He said the British Empire Services League for ex-service men throughout the empire gave him a hearty welcome.

The two Canadian delegates to the Cape Town conference, R. B. Maxwell, of Winnipeg, Dominion president of the Great War Veterans' Association, and J. Morgan, of Toronto, representing the Army and Navy Veterans' Association, travelled back to England with Earl Haig.

Mr. Maxwell declared that South Africa was much behind the other dominions in caring for ex-service men.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of the destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

More Gypsum in Canada

Large Reserve Available If Market Can Be Found.

In drilling to test the commercial possibilities of the salt beds in the Fort McMurray district of the Athabasca River country, recently, it was found that there are nearly 100 feet of anhydrite and gypsum of commercial quality at depths ranging from 500 to 600 feet, and if a market can be found for it there is a large reserve available for development. Gypsum is one of the important non-metallic minerals of Canada, and is found in several of the provinces, but was not known to exist in the far north. The total production of this mineral in Canada in 1920 was valued at \$1,074,595, but the value of the deposits of the ore must run into many millions.

Refuse To Change Wheat Grades

Rolling Is a Great Disappointment To American Farmers.

United States wheat producers of the border country, and especially throughout the northwest, are keenly disappointed over a ruling just announced by Secretary of Agriculture Wallace refusing to change the federal grades on foreign wheat, except in small particulars. The decision is regarded as a victory for millers, though Secretary Wallace promises a thorough investigation prior to marketing season a year hence. The Canadian grain trade is much interested in the situation.

The Comet's Tail.

Exactly what comet's tail are made of is one of the unsolved problems of astronomy, but the theory most generally accepted is that they are formed from particles of the comet itself, forced away by the pressure of sunlight, as they apparently increase in size and activity the nearer the comet gets to the sun.

Where Farming Pays.

Starting out to work a farm with a mortgage tacked on to it for more than the farm was worth was the prospect of Sam Chute, of Berwick, Nova Scotia, 25 years ago. Last year he sold 20,000 barrels of his own apples, and about 60,000 quarts of strawberries. The old mortgage is gone and forgotten, except as a memento.

The immigration restriction bill has been signed by President Harding.

"Your Teeth"

By Res Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

IN LATER YEARS.

Copyright, 1921, by Res Proctor McGee.

Time lies in wait for every man and will get him sooner or later if something else doesn't. When time begins to get a man the question is, how well is he prepared to resist the downward drag of years? We know this drag is sure, but we all hope to make it slow. It must be terribly disconcerting for a man to suddenly have the skin knocked out from under him and to miss the pleasure of the long, quiet twilight of life.

Not that any of us are yarning for time, or a twilight business, but it is the best we have when it comes, so let's make the most of it.

It is a fact that men and women past fifty years of age, who have perfect teeth, are remarkably free from chronic disease. Very few people who are past fifty years and who show advanced pyorrhea and decay of the teeth have anything like normal health.

There are people seventy to ninety who have nearly perfect teeth and their splendid health leads us to believe that there is a definite connection, in old age, between good teeth and good health.

Many old people are vigorous who have well-fitted artificial teeth, much healthier in fact than people of the same age who have advanced pyorrhea, or a number of abscessed roots, or both, in their mouths.

Good artificial teeth are far preferable to diseased natural teeth.

Artificial teeth are made from porcelain. A great deal of careful study has been put upon the shapes, colors, types and contours of porcelain teeth. The making and fitting of plates to the mouth, and the arrangement of the teeth, both from the artistic and from the mechanical aspect, has been reduced almost to an exact science in America.

If we keep our machinery in good repair as we go, we will have no regrets when the time comes to reduce speed and jog along quietly to the end of the road.

Good Outlook For Lloyd George.

Last year when Mr. Lloyd George was in Paris, Mme. Sarah Bernhardt paid him a visit and subsequently she came to luncheon with him, being borne up to the dining room in a stretcher chair.

Their conversation was mainly translated, as neither spoke the language of the other. But from the first Mr. Lloyd George was won over by "La Divine Sarah" personally.

The interview ended thus: "I wish I could talk English," said Mme. Bernhardt.

"Ah! I wish I could talk French," replied the Prime Minister.

"Well, some day," she said, "we shall meet in heaven, and then no interpreters will be required."

Faithful to the End.

A story is going the rounds about a man in St. Louis who wrote a will in which he named six bankers to be his pall-bearers. "They have carried me for twenty years," he explained, "and they might as well finish the job."—Toronto Star.

LETTER FROM MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery.

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything or go any place. My nerves were in bad shape, I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspaper and several of my friends advised me to use it, and it surely put new life into me. Now I am quite able to do all my own work, and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."

Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

The Thrift of the French

People Have Worked and Saved Money Since the Armistice.

France was dreadfully torn by the war, terribly depleted financially by its expense. But what do we see now? Two years and a half after the armistice her people are able to invest 10,000,000 francs a year in bonds! There's a lesson in thrift, in saving, in resources, for the whole world! It was having anything to compare with it in America our prosperity would be the marvel of all ages, our money power almost beyond computation. But France has not been spending billions for luxury since peace came to her. She's been saving her sou and we have enjoyed scattering our dollars. And they work in France—Chicago Journal of Commerce.

Sell Bonds at Good Price.

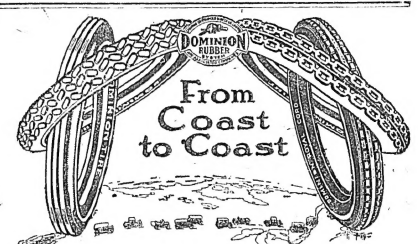

Three million dollars worth of five or six per cent. bonds were disposed of to the British American Bond Corporation, Victoria, B.C., on behalf of a syndicate of Chicago, Seattle and Victoria Bond Houses, at 100.01, proceeds of which will be used chiefly for work on the Pacific Great Eastern Railway in British Columbia.

Love never recognizes hardships in its way.

Bert Knight, Prop.

Sounding Creek M.D. Increase Assessment

At Saturday's meeting of the council of Sounding Creek municipal district the secretary reported that the Assessment Equalization Board (provincials) had ordered an increase of five per cent. on the assessment of the municipality. A considerable discussion ensued as to how this increase should be distributed. It was the general sense of the council that there was at present too great a difference between the assessment of lands close to town and those lying further out. It was finally decided, on motion of Mr. Coad, that in future no lands be assessed for more than \$2,800 per quarter-section; and that the additional five per cent. required by the Equalization Board be levied on lands at present assessed at \$2,400 or under.

The session opened about 2.30 with all the councillors present. The minutes of the last meeting were read and approved.

It was moved by Mr. Proctor and carried, that the municipal district assume the insurance on the municipal office carried by the Bank of Commerce for the unexpired term.

It was moved by Mr. Cameron and carried that H. J. Duffy be appointed auditor for the current year at a salary of \$75.00.

It was moved by Mr. Proctor and carried that the taxes on the northeast of 5-29-7 against J. M. Smith, amounting to \$30.00 be exempted for the year 1919 on account of Mr. Smith's military service.

A request from one of the poundkeepers for poles to repair his pound was granted, but on motion of Mr. Fraser, it was decided that in future, where the municipal pounds are used for the poundkeeper's own stock, he be held responsible for the upkeep of the pound.

Three different travellers for road machinery addressed the council briefly. It was decided on motion of Mr. Coad to purchase the following machinery and repairs from the Western Corrugated Culvert Co.: 4 freshones, 1 road plow, 1 eight-foot drag, 4 Fresno blades and eight runners. It was also decided not to buy a new grader this year, but Mr. Fraser moved and it was carried, that Messrs. Coad, Proctor and Cameron, be a committee to inspect the old graders and order necessary repairs at once.

The following rates of pay for road work for the current year were decided on, moved by Mr. Cameron: Man and eight horses, \$1.50 per hour; man and four horses, \$1.00; man and two horses, 80c; single man, 60c; foreman, 75c.

Mr. Fraser moved and it was carried that an appropriation be made for general road purposes of three mills on the assessment for each division, such appropriation to include all previous appropriations for the current year. On the basis of last year's assessment this would give the different divisions as follows: No. 1, \$1,700; No. 2, \$1,650; No. 3, \$1,160; No. 4, \$1,320; No. 5, \$1,060; and No. 6, \$950.

The method of remuneration of the secretary came up for discussion. Mr. Cameron moved that the system of paying commission on the collection of arrears of municipal taxes be discontinued and the secretary's salary be raised to \$1,500 with outside commissions. Mr. Cowin moved in amendment that the provincial government and Hall Insurance Commissions revert to the general fund of the municipality. After some discussion the amendment was lost and the original motion carried.

It was moved by Mr. Fraser that the action of the reeve and Councillor Coad in establishing quarantine in the Young's smallpox case and guaranteeing accounts in that connection, be approved. It was moved by Mr. Cameron that Mrs. Averill be appointed to inspect James Young's premises on the raising of the quarantine.

It was moved by Mr. Fraser that no general weed inspection be made this year, but that the work of inspection be directed to vacant and abandoned lands and neglected summer fallow, and to such lands as are reported to the council as infested with weeds; that the attention of all taxpayers be called to their responsibilities in reporting such cases; also that all cases of gross negligence be prosecuted to the full extent of the law. This was carried. It was moved by Mr. Coad and carried that we pay our weed inspectors at the rate of \$5.00 per day and 15c per mile for mileage covered. It was moved by Mr. Fraser and carried that the secretary be appointed weed inspector at large and that the appointment of divisional inspectors be left to individual councillors.

It was moved by Mr. Cameron and carried that the following bills be paid by the finance committee be paid: Road work—H. L. Coad, \$2.00; V. Swenson, \$24.00; B. Skiles, \$8.00; W. C. Auld (two months' light) \$3.50; The Plaiddealer (printing and adver-

tising), \$9.51; Banner Hardware (disinfectants) \$10.00, (repairs, Div. 5) \$8.50; Empire Lumber Co. (material, No. 3), \$104.05; R. S. Woodruff (material), \$4.10; Beaver Lumber Co. (material, No. 2) \$12.50; May telephone bill, \$4.90; Chas. Wylie (balance on strychnine), \$173.46; painting—sign, \$8.50; U.F.A. (repairs No. 2), \$1.50; L. M. Colpitts (two months' salary), \$200.00, (commissions), \$38.55.

The accounts guaranteed in the Young quarantine account, as far as they have come in, total for James Young, \$171.40; Joseph Young, \$15.70; and Wilson Young, \$15.75.

It was moved by Mr. Cowin and carried that the council adjourn to meet again on June 25 at 2 p.m.

Public Meeting of Electors

Nelson Spencer, the Government candidate for this constituency in the present By-election, will address the people of this district in Arm's Hall, on the night of June 9.

Mr. Spencer will give a clear statement of his stand on the various issues that have been brought forward in this campaign, and will be pleased to answer any questions of public interest. Adv.

Farewell Social In Honor of Rev. and Mrs. G. H. Elliott

At a social gathering of townspeople and country people, held in the Chinook church last Thursday evening, Rev. and Mrs. Geo. H. Elliott were the guests of honor, and during the evening were presented with a well filled purse and the following address: Rev. and Mrs. Geo. H. Elliott. Dear Friends:

It is with mingled feelings of regret and pleasure that we meet with you, as friends, this evening. We regret that it is necessary for you to leave our midst, and trust that your move to the new field will be a step to higher and better things.

It has been a pleasure to have known you for the past four years, and to have had your help and co-operation in the many activities that go to make life worth while in our Western land. We have appreciated your kindly sympathy and interest in that have made for the welfare of the community.

We beg the acceptance of the accompanying token of our appreciation and regards.

Our loving interest and prayers will follow you, and while you are forming new friendships we trust that the old will not be forgotten.

Signed on behalf of the Church: Both Mr. and Mrs. Elliott are well known throughout this district and have made friends innumerable during their four years of ministry in the Chinook church. Apart from church work, Mr. and Mrs. Elliott always took a keen interest in the welfare of the town and during the epidemic of influenza rendered valuable assistance in the community. They are people of the highest ideals, and splendid citizens who the presence here will be greatly missed.

Rev. and Mrs. Elliott left on Wednesday for Calgary where they will attend Conference. After spending a short holiday at the Coast, they will return to Chinook and Mr. Elliott will conduct his last services in district before going to their new church.

STRAYED—Team Bay mares, both both branded U7 on right shoulder. One with white face and white hind feet, was due to foal May 8. One with star on forehead and a right hind foot white, weight about 1550 lbs. \$15 reward. Notify—Sam Aikler, Wile, Alta.

Canadian National Railways

It is interesting to note the excellent preservation of some old family residences. So well do they "fit into the picture" that except for their architecture, one might almost imagine them the product of the present age, yet in reality they stand as silent tributes to the wise precaution against decay and deterioration on the part of a former generation.

Any house that is worth building should also be worthy of preservation by means of paint. The maximum of protection is found in

B-H "ENGLISH" PAINT

The formula (70% Brandram's Genuine B.B. White Lead and 30% Pure White Zinc) produces a paint with a fine, smooth surface that does not crack, chip or peel and a surface protecting film that will defy the elements.

Investigate B-H "English" paint—you'll find most Canadians use it because of its economy and lasting qualities. A trial will make you a convinced adherent to this brand that goes so far and lasts so long.
